Tragic Incidents at two Mosques in New Zealand

The Islamic Society of Greater Houston shares the grief and sense of loss of life in two Mosques in New Zealand. We offer our deepest condolences and sympathies to all the victims' families.

We urge our community members to pray for the Maghfirah for the departed souls and make Dua' for the people who are affected by this incident. Tragic events like this remind us as to what world we live in where sanctity of life is not valued by misguided, this is an act of terror and there is no justification for such heinous acts. We strongly condemn this violence against humanity.

The ISGH has contacted counties and cities officials for the protection of all the Mosques in Greater Houston area, and ask the community members to be vigilant and report any suspicious activity to the law enforcement authorities, but exercise caution and patience.

Sohail Syed
-ISGH President
